## **DETAILED ACTION**

### ***Response to Arguments***

Applicant canceled all claims that were not previously allowed. Examiner notes that the phrasing used in the previous Reasons for Allowance was a paraphrase of the exact claim limitation; it was not the exact terminology (see Remarks, page 2).

### ***Allowable Subject Matter***

The indicated allowability of claim 7-11 and 29-33 is withdrawn because the claims fail to comply with 35 USC 101.

Claims 18-22 are allowed.

Claims 7-11 and 29-33 would be allowable if the issues concerning compliance with 35 USC 101 are addressed. The step of "display on a display device" and/or "rendering for display on a display device" would be acceptable positive recitations of a tangible, practical, and concrete result.

### ***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 7-11 and 29-33 are rejected under 35 U.S.C. 101 because they recite non-statutory subject matter. Under the Interim Guidelines on Subject Matter Eligibility, the recited independent method claim 7 fails to produce a concrete, tangible, and practical result. The dependent claims fail to correct the deficiencies of their parent claim(s).

Computer program product claims 29-33 have the same defects as the computer-implemented method claims and are rejected under the same grounds.
